**EXHIBIT “A”**

**AMEND**

§ 213-562 Purpose and Intent

It has been brought to the Town Board’s attention that the over intensification of deeded waterfront parcels is occurring in the Grand Canal area of American Venice in Town of Babylon. This Section seeks to regulate the use of these parcels to promote the more orderly use of this property and to limit allowable improvements to those specifically related to boat dockage and waterfront use and access. These parcels do not meet the minimum lot area requirements for a principal dwelling. In many cases these parcels have been transferred from the original owner and are no longer associated with a larger parcel with a dwelling. The permitted use of these parcels as set forth in this Article, is primarily for a boat berth and access to the water. Excessive outside storage and improvements on deeded waterfront parcels may also increase debris fields and the potential release of pollutants and damage during storm events thereby increasing recovery needs and costs for the Town of Babylon.

§213-563 Geographic Area-The geographic area of the Grand Canal Boat Berth District shall be identified on the amendment to the Official Town Zoning Map titled; Grand Canal Boat Berth District, filed in the Town Clerk’s Office on \_\_\_\_\_.

## §213-564 Definitions

Deeded Waterfront Parcels-Small vacant parcels of waterfront land intended for the purpose to provide access to the water and boat dockage. Many of these parcels were created along canals and waterways of the Town subordinate to larger parcels with dwellings.

Derelict Vessel-Any vessel, boat barge, or floating structure left, stored or abandoned in a sunk, listing, adrift, wrecked, junked, non-operable or dismantled condition or made fast along the frontage of a deeded waterfront parcel in an inoperable condition. Vessels stored in an inoperable condition continuously on a deeded waterfront parcel or made fast to a deeded waterfront parcel for three or more years shall also be considered a Derelict Vessel. A Derelict Vessel shall be subject to all enforcement actions and procedures of Chapter 133-25 Outdoor deposit or Storage of Waste.

Floating Home- Any vessel designed or, in fact, used or occupied as a dwelling unit, living and sleeping quarters, business office or source of any occupation or for any private or social club of any nature, including but not limited to a structure constructed upon a barge primarily immobile and out of navigation or which functions substantially as a land structure while the same is moored or docked, whether such vessel is self-propelled or not.

Pervious Surface-A treatment that allows water to percolate through the subsoil, such as gravel, stone and paver systems with a pervious subbase.

## § 213-565 Allowable Uses and Improvements

- A. On deeded waterfront parcels in the Grand Canal Boat Berth District only the following improvements and uses are permitted without meeting the minimum lot area requirements, the existence of a principal structure on the lot and any and all dimensional requirements of the A, B, and C Residential Zoning districts:

Up to a 4' wide dock platform running parallel and abutting along a bulkhead is not included in this calculation.
  - (13) Fences up to 4' in height. Perimeter fencing shall not be of solid construction; with the exception of the fencing separating parcels or facing a side yard.
  - (14) Uses and minor improvements ancillary to the harvest of shell or finfish. This includes the storage of minnow pots, crab pots, cast nets and similar fishing gear.
  - (15) All structures and decking must be suitably anchored to prevent floatation and lateral movement during flood events in accordance with Chapter 125 of the Code of the Town of Babylon Flood Damage Control and applicable State and Federal building codes and regulated in connection with floodplain management.
